Marouane Daoudi

M2 Statistics and Data Science

University of Montpellier · Montpellier, France
marouane.daoudi@etu.umontpellier.fr · marouanedaoudi.github.io
GitHub / marouanedaoudi · LinkedIn

Second-year master's student with a background in probability, statistics and optimization. Seeking a **machine learning research internship in Taiwan**, with the aim of subsequently pursuing a PhD in ML.

EDUCATION

2026-2027 M2 Statistics and Data Science
University of Montpellier · In progress
Statistical learning, Bayesian statistics, nonparametric estimation, generalized linear models, multivariate analysis, latent-variable models.

2025-2026 M1 Applied Mathematics
University of Montpellier
Probability, stochastic processes, inference, optimization, time series, linear models and software development.

2024-2025 Third year, Bachelor's degree in Mathematics
University of Montpellier

2022-2024 Scientific preparatory classes (CPGE)
Lycée Descartes, Tours

2022 French general baccalaureate, Mention Bien
Lycée Jean Moulin, Béziers

SELECTED PROJECTS

2025-2026 Adaptive bandits and multiple testing Code
Team project with I. Bahraoui and C.-E. Bouaziz; supervision: A. Nguyen-Huu and L. Boisgibault. Sequential inference, adaptive and uniform allocation, simulations and analysis of statistical limitations.

2025 L1BallPGD Code
PGD and FISTA for L1-constrained least squares. Exact projection, synthetic experiments and numerical comparison with scikit-learn.

2026 Slitherlink Shiny Code
R package: grid modelling and validation, constraint propagation, backtracking, puzzle generation and a Shiny interface.

2024 Recip Score Code
Python team project with A. El Mahzoum, C.-E. Bouaziz and M. Diagne. Recipe and nutritional data processing, score computation and ingredient-based filtering.

SKILLS AND LANGUAGES

Python: NumPy, pandas, scikit-learn. **R:** dplyr, Shiny. **Tools:** SQL, LaTeX, Git/GitHub.

English: C1 · Arabic: intermediate · Spanish: basic
